

BUSINESS UPDATE

August 2022

July Chamber Breakfast

Our Chamber Breakfast on 5th July attracted over ninety(90) local business people to hear three(3) presentations on major projects.

Len McLachlan, General Manager of AGL Macquarie Operations gave a brief update on the current situation at our local power stations. While the planned demerger has been 'canned' and there is to be a new Board and CEO at Macquarie, Len emphasized that Macquarie is "here to stay" and the focus on the energy hub and development of the Liddell and Bayswater sites is a given. In the meantime, it is business as usual.

Nathan Lane, Approvals Manager for HVO Continuation Project, presented Glencore's proposal to continue HVO to 2050. The presentation contained valuable information on the 1190 employee profile by LGA residence and the importance of continuing this Operation which has been producing product, jobs and prosperity for 70 years. There is a video on the HVO web site.

Adam Lancey, Vice President NSW Energy Coal, outlined the various options BHP explored to divest their interest in Mt. Arthur Coal before the recent announcement to cease mining in 2030. Adam highlighted that the decision was consistent with BHP's focus on "Planet, People, Prosperity." Going forward there is to be a focus on permanent employees, stable production levels, maintenance of support for local businesses through C-Res and the BHP Local Buying Foundation. BHP will be seeking and extension of their existing mining lease from 2026 to 2030 to allow for an orderly cessation of mining and a commencement of rehabilitation. Chamber members are invited to follow the project through www.bhp.com/pathway-2030

This Newsletter is
proudly sponsored by:

Dear Members & Colleagues,

I hope you are all safe and well and meeting the challenges in your business head on.

If you attended our July Breakfast, you would be better informed of developments at three of our larger member businesses. They don't come much bigger than BHP, AGL & GLENCORE and all three gave excellent presentations on their future plans and opportunities for local businesses. We are fortunate to have these large local companies prepared to share their plans and express an interest in the local economy and community. You will see more details in this Newsletter and links to more resources for local businesses.

Our August Breakfast will feature a Chamber Update with information on current and future activities. There will be an Open Forum section for members to raise any issues the Chamber can assist with. Don't ask us to change the weather, the Pandemic, global warming or the global economy but let us know what we can do to grow our local economy.

The Chamber has made a submission to the Independent Planning Commission in support of the MACH Energy Mt. Pleasant Optimisation Project which proposes a continuation of mining to 2048. The submission is on the IPC web site and can be accessed through the Chamber website as well. The IPC's deliberations could take some time and the Chamber will stay close to the matter and keep members informed.

Our Chamber AGM is set for Wednesday 2nd August and all Board positions will be declared vacant and elections held for the 2022-2023 financial year. All members are welcome to attend and nominate for a Board position or act as an assistant to the Board.

I hope you all have the Great Cattle Dog Muster in your diaries and are going to attend, particularly on September 10th for the Family Fun Day. This will be an opportunity to meet with people from around Town, around the Country and around the World.

I will look forward to seeing you at our Breakfasts and the Muster.

Yours sincerely,

Mike Kelly
President

MEMBERSHIP RENEWAL

The Muswellbrook Chamber of Commerce and Industry has a proud reputation as one of the strongest and proactive Chambers in the region. This is in part thanks to the strong support of its members. With many issues effecting the region, the Chamber will need your ongoing support to ensure that it can continue to represent you and also continue to provide a range of programs and services

MCCI membership renewals are now due!

If any members are experiencing any financial hardship, please contact us about your membership renewal.

OUR MISSION

'To represent, promote and encourage business enterprise in Muswellbrook and its districts'.

MOUNT PLEASANT OPTIMISATION PROJECT SSD 10418

On behalf of our 200 member businesses, the Muswellbrook Chamber of Commerce and Industry supports the Optimisation of MACH Energy Australia's, Mount Pleasant Operation to 2048.

Our Chamber has supported the Mount Pleasant Operation with submissions to government since the beginning of the project which was approved in 1999.

We supported Mod 1. in 2011, Mod 2. in 2017 & Mod 3. in 2018.

The purchase of the project by MACH Energy Aust., in 2016, was welcomed by local businesses. The commencement of construction and the production of 'first coal' in December 2018 brought immediate and significant economic benefits. We have seen a workforce of around 380 operational people and a construction workforce of up to 350 people over the last six (6) years. We have also seen growth in local businesses supplying labour, materials and services to MACH and their major contractors on site and in all sectors including accommodation, retail, hospitality, consulting, trades, engineering and professional services.

The Mt.Pleasant Optimisation Project offers the continuation and growth of these economic benefits. In particular, we sight the benefits identified in the NSW DPIE Report which includes -

- Continued direct employment of an average of 600 people at the mine.
- Over 1500 direct & indirect jobs in NSW with an estimated 1100 of those jobs in the Hunter Region.
- Direct capital investment of \$950 million in the project.
- \$1.4 billion (NPV) net contribution to gross State product.
- Indexed Planning Agreement contributions of \$20 million to Muswellbrook Shire Council and \$6 million to Upper Hunter Shire Council toward community enhancement projects.

These economic inputs will have a substantial positive impact on the Muswellbrook economy as well as the NSW and National economies.

On behalf of Muswellbrook Business, the Chamber makes the following points of view that we believe are broadly held in the Muswellbrook community and based on the Chamber's thirty (30) years of experience and engagement.

1. The Muswellbrook economy is largely dependent on the mining, processing and transport of coal to provide employment and prosperity.
2. The economic benefits from local mining are spread throughout the Hunter Region, the State & the Country.

OUR MISSION

'To represent, promote and encourage business enterprise in Muswellbrook and its districts'.

3. The cessation of mining at Muswellbrook Coal this year and the planned closure of Mt. Arthur Coal in 2030 as well as the closure of Liddell Power Station in 2023 and Bayswater Power Station in the 2030's is of great concern to local businesses.
4. Despite the move to a decarbonized economy there is little evidence of the labour-intensive, export industries that could match the economic inputs of coal in the short to medium term.
5. The NSW Minerals Council forecasts strong global demand for high-quality, low-cost Hunter Valley Coal out to 2050.
6. The professed negative impacts of mining on livability and other industries are not supported by the continuing diversity of the Hunter Economy and the demand for housing in Muswellbrook and the Upper Hunter generally.
7. Over the last six (6) years MACH Energy, has made substantial cash and 'in-kind' contributions to local sporting clubs, community service organisations, community events and special needs and interest groups. Since 2017, 35 local organisations have received over \$750,000. MACH also took over the Aboriginal Community Development Fund which was established by Rio Tinto in 2005. This fund has contributed over \$4 million to education, cultural and economic development programs for indigenous people in Muswellbrook, Singleton and Upper Hunter Shires. In 2022 MACH Energy's contribution to the ACDF will be in excess of \$700,000.
8. Our Chamber has been able to support 200 local businesses of all types with sponsorship from MACH. Our Business Awards Program and Making Muswellbrook Program have their ongoing support which allows the Chamber to recognize and promote excellence in all types of businesses. MACH management personnel attend our monthly breakfasts and engage with local business to support local procurement.
9. MACH Energy Australia is a responsible corporate citizen and is seen as an integral part of the Muswellbrook community.

The Chamber will leave the environmental assessment of SSD10418 to experts in that field. We would however record our observation that over the last twenty (20) years mining companies in the Upper Hunter have taken a more holistic approach to their developments with stronger community engagement, the recognition of the transitioning economy and beneficial after mining land use. MACH Energy Mount Pleasant has demonstrated their commitment to this approach and the Chamber trusts that, with realistic conditions of consent, the Optimisation Project can deliver economic benefits as well as environmental benefits.

Have you registered your business to participate in the 'We Live Here' card program?

The "We LIVE Here" local investment cards work like an EFTPOS gift card once loaded, and are only be able to be used with participating businesses, ensuring local expenditure and economic development for the region.

This program isn't just for retailers. Local businesses from health professionals, B2B, mechanics and more have all signed up to the program.

The cards can be loaded with funds from \$20 to \$1000, can only be loaded once (no top ups) but can be used multiple times or spent all at once. They expire after three years.

Purchasers can check card balances online or by phone, and registered cards can be replaced if lost.

Register your business online: <https://www.whyleavetown.com/register>

The more participating businesses we have, the greater choice individuals will have in how to use the funds.

OUR MISSION

'To represent, promote and encourage business enterprise in Muswellbrook and its districts'.
